

# Welcome to India's **FIRST & ONLY** **ACCREDITED** Online School

For Nursery - Grade 8

# INTRODUCTION

We are a school for all Nursery to 8 graders. If parents want their children to study in a school that provides the best combination of world-class school education, traditional Indian values, modern-world skills and character-building, then we are the right school for them.

We are a school created by educators, collating learnings from their years of experience and research, hand-picking the best educational practices from around the world and restructuring all of those in a format that is best suited for Indian learners. In the process of doing so, our team has interviewed thousands of teachers, learners and parents, with attention to every intricate detail and feedback. In K8 School, we are thus happy to create a school that is designed and curated to provide solutions to all the learning and teaching woes.

K8 School brings together the CBSE-based curriculum, best teaching methods from all over the world, trained, experienced and certified teachers from all over India to create the most powerful learning experience for its students. We are the only school in India that has developed its own online learning-management system and our students and parents experience the power and impact of this system every single day.

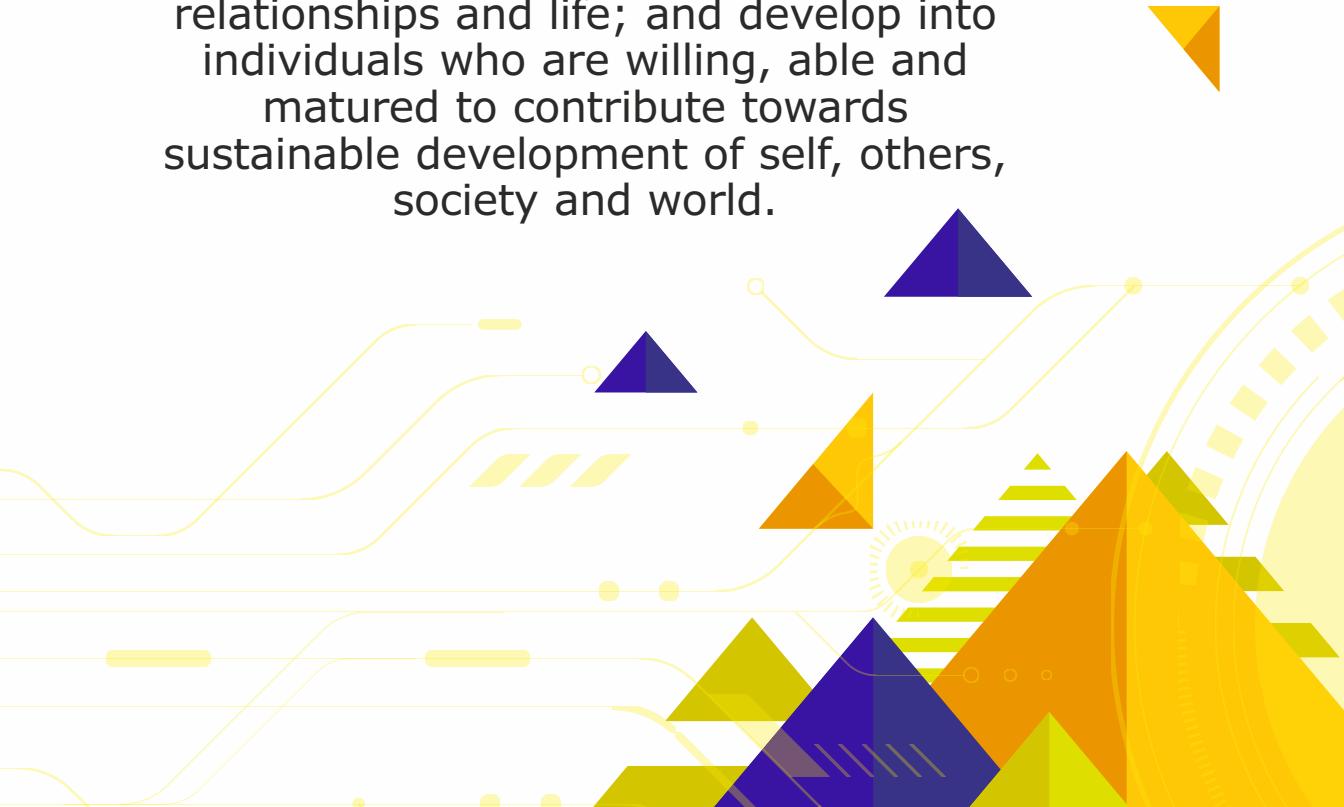

K8 School is a online school which simply means that learners can access it on their devices and don't have to physically go and attend classes anywhere. The moment they log in, they are inside the school. K8 School is learner-focused, learner-friendly and absolutely safe for all learners. We ensure that we bring together the best of teaching and learning environments to fit in a digital space so that learners and parents can access our school from the devices, at their freedom and preferred time. In this Digital School, we strive to provide much more than what a regular and conventional school provides. We are inspired and motivated to keep improving so that all our learners get that extra edge.

## VISION

To create a learner-friendly school that ensures and provides world-class quality of learning & teaching by providing a school environment that is personalized, learner-focused, flexible and inspiring, thus motivating learners to excel in academics, career, interpersonal relationships and life; and develop into individuals who are willing, able and matured to contribute towards sustainable development of self, others, society and world.

# cognia™

There is a reason why K8 School is the only Cognia-accredited online school in India. Cognia accredits only the 'best-of-the-best' schools in the world. There are only around 400 accredited online schools in the world and most of them are in the US. Studying in K8 School is similar to studying in one of those international and prestigious schools.

Cognia, is a non-profit, non-governmental organization that accredits primary & secondary schools around the world since 1895. Accreditation from Cognia is a valuable mark of distinction recognized around the world and serving more than 36,000 public and private institutions from early learning through high school in 85 countries. Each year, Cognia identifies schools and systems that best exemplify excellence in education and stand out in their service to learners, based on the results of their rigorous accreditation process. The Cognia Performance Standards define the practices of a good education institution and provide the criteria for improvement efforts that will energetically and visibly grow learners, teachers, leaders, and organizations.

# CORE PHILOSOPHY OF CURRICULUM

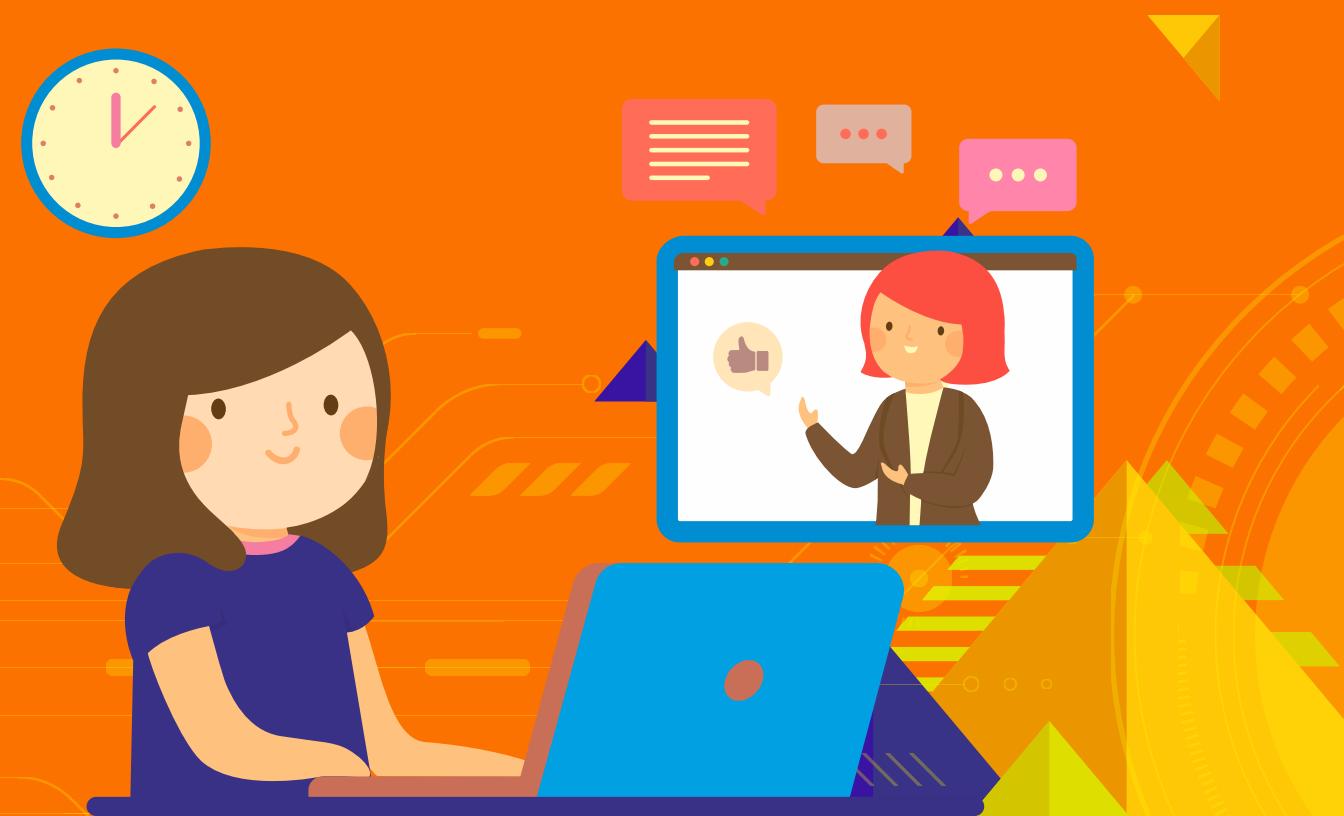

Impart teaching and learning to inculcate core elements in all learners that prepare them academically, emotionally, mentally, socially and physically to embrace challenges and opportunities in 21st century day-to-day lives and equip them with the necessary abilities, skills and ideas to excel in careers and lives while maintaining a responsible and collegial outlook towards self, others, environment and the world at large.

## HOW DO WE PRACTICE THIS CORE PHILOSOPHY

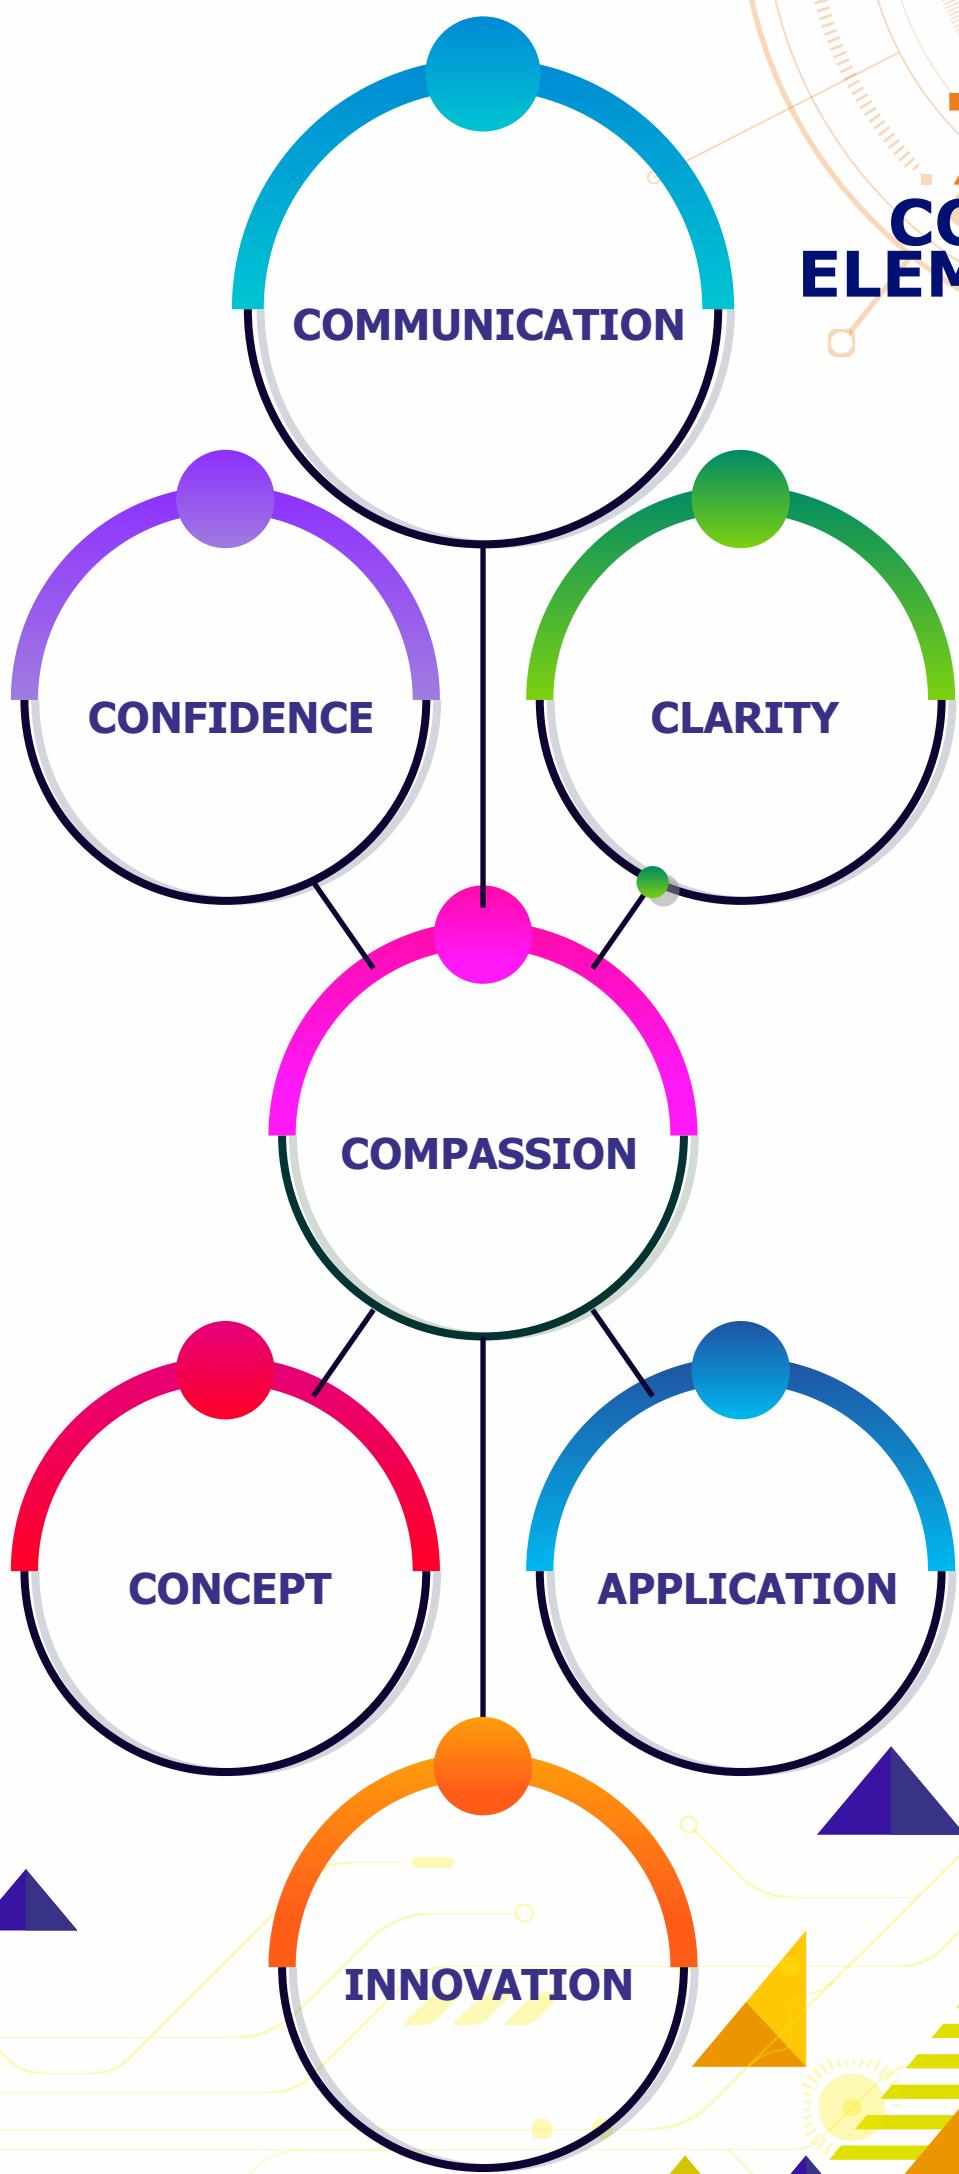

**Through the concept of imbibing core ELEMENTS in all learners**

**Each course component is marked to one/more of these core elements**

**All course components are aligned to horizontally and vertically integrate the core elements intra-grade and inter-grade**

# 7 CORE ELEMENTS

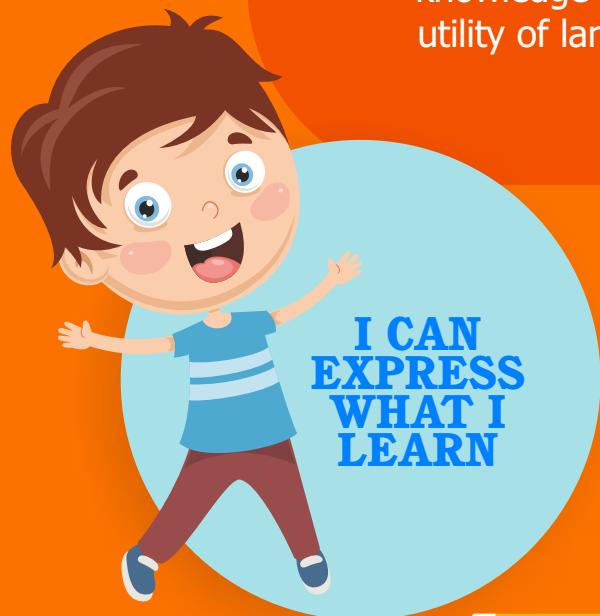

## COMMUNICATION

### EVERY LEARNER MUST

be able to use language as a tool to communicate ideas, thoughts, feelings, information and knowledge and must be able to appreciate the utility of language as a tool for acquiring more knowledge

## CONFIDENCE

### EVERY LEARNER MUST

be encouraged, motivated and inspired to learn continuously and dedicatedly in all areas at a broad level and more specifically in areas of interest and passion, so as to develop confidence in one's content, knowledge and expression

## CLARITY

### EVERY LEARNER MUST

be able to appreciate the importance of developing in-depth knowledge across a particular course as well as comprehend how different courses are linked to one another so as to create a bigger picture of the world around us

## COMPASSION

### EVERY LEARNER MUST

be provided an environment where collegiality, collaboration and empathy are vital components and focus is laid on cultivating, practicing and appreciating respect for self and others through systemic and inclusive regard for human and moral values, environment and global citizenship

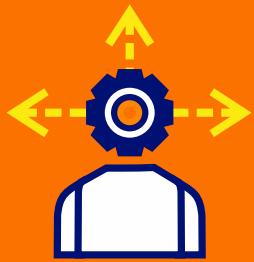

# CONCEPT

## EVERY LEARNER MUST

be able to understand and grasp the primary fundamentals and principles that lie at the core of courses & subjects, through a well-implemented and scientifically-driven process of developing appreciation for the building such blocks of courses and subjects.

# APPLICATION

## EVERY LEARNER MUST

be able to relate the acquired learning to the world around oneself and appreciate the context in which such learning could be applied to create more meaningful and scientific interpretations in the physical universe

I CAN  
IMPLEMENT  
AND  
PRACTICE  
WHAT I  
LEARN

## INNOVATION

**EVERY LEARNER MUST**  
be encouraged and motivated to think  
creatively, analytically, logically,  
critically, objectively and laterally so  
as to utilize the acquired learning in  
creating/developing unique and  
different ideas, products, methods  
and principles.

# WHAT DOES TEACHING MEAN TO US?

The process of inspiring, motivating and preparing every learner to understand and grasp the basic principles and concepts of every course by providing a learning environment that is conducive and adaptive to the learning requirements of every learner

## PRIMARY ATTRIBUTES OF EVERY K8 SCHOOL TEACHER

# TEACHING METHODOLOGY

## CONVENTIONAL LEARNING MODEL

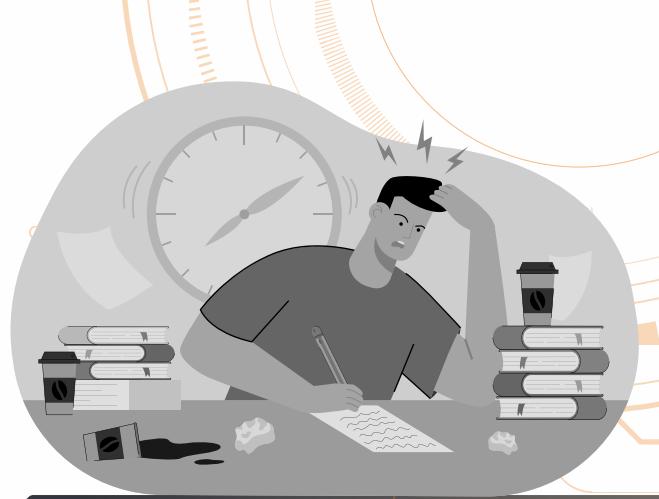

TEACHING LIMITATIONS DUE TO DIVERSITY IN SKILLS OF LEARNERS

LIMITED INVOLVEMENT OF PARENTS

MANY LEARNERS IN A CLASSROOM

LIMITED OUT-OF-CLASSROOM INTERVENTIONS

LESS MONITORING AND PROCTERING

VS

## K8 SCHOOL LEARNING MODEL

SMALLER BATCHES MEAN MORE INDIVIDUAL ATTENTION PER CHILD

MORE FEEDBACK AND MONITORING

CONSISTENT AND COMPREHENSIVE ASSESSMENT

PROCTORED AND REGULATED ENVIRONMENT

FREQUENT INVOLVEMENT OF PARENTS

FREQUENT OUT-OF-CLASSROOM INTERVENTIONS

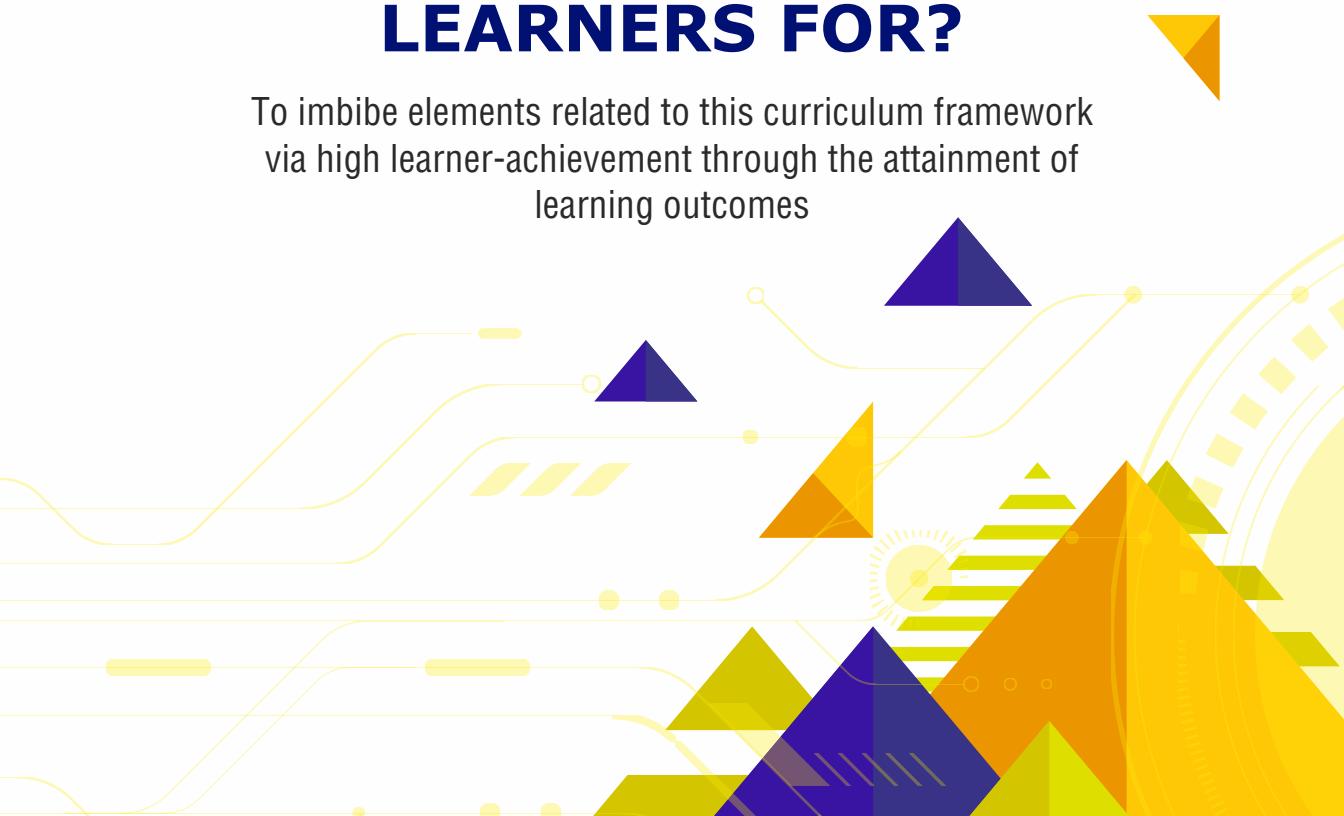

# **WHAT DOES LEARNING MEAN TO US?**

Learning means acquisition of knowledge or skills through a systematic, rigorous, engaging and interesting process where human, material and natural resources are involved in an active and inclusive manner and exchange of ideas, thoughts and beliefs is operationalized.

# **WHAT DO WE PREPARE LEARNERS FOR?**

To imbibe elements related to this curriculum framework via high learner-achievement through the attainment of learning outcomes

# KEY FEATURES OF OUR LEARNING ENVIRONMENT

Every learner must be proficient with the course content and be able to apply it in the context of real-life situations

Every learner must develop strong appreciation for self and others

Every learner must strive to become a kind, considerate and caring human being

Every learner must become a socially-responsible citizen

# SEE WHAT OUR PARENTS SAY

Kabeer gets so much more time to do so many other activities and he is still getting better grades than what he used to get in his previous school

**Ankit Verma**  
Bangalore, Karnataka

K8 School has an **unbelievable collection of digital learning material** which helps Sufi to not just understand concepts, but also see them in front of her eyes in the form of videos

**Shwetha & Rajan Iyer**  
Chennai, Tamilnadu

Zinnia is **so much better in all subjects now**, especially in Maths & English and this is so much relief for us as parents.

**Mimi Saha**  
Kolkata, West Bengal

# SEE WHAT OUR PARENTS SAY

Ayaan doesn't need us to sit with him for classes now. We do our own work and he is focused on his studies

**Puja Gautam**  
Delhi

There are **only 15 students in Myra's class**, and that is why her teacher is able to give her time and attention so she is able to spend a lot of time in her piano classes too

**Satish Mahajan**  
Navi Mumbai, Maharashtra

For Abir and Simran, there will never be a better, more interesting and safer school. I studied in one of the best schools in India and I find K8 School better than that
